

Global Satellite Phone Service (GPS)

BSNL's GPS also called satellite phone service, provides voice communication and messaging from any part of the globe. However, presently, the services will be available within India only.

It is an every where service, hence can be used from all part of the country including territorial water. It is being provided through world's most advanced satellite communications network working on Inmarsat I-4 F2 satellite located at 63.90 degree East.

It is suitable for persons working in remote areas or disaster affected areas – defence, border security organizations, disaster management bodies, trekkers, fishermen, maritime applications.

Presently, the services are available to Government Agencies and existing users of satellite Phone services including Mini-M users.

BSNL Mobile Satellite Communication Inauguration by Hon. MOC
