Additional Features

Customers can purchase BulkSMS plan for firms/institutions etc and administrative privilege will be extended to the main user by BSNL. The main user can create different level/group/users within their organization.

The main advantage of this feature is that a single BulkSMS plan can be purchased from BSNL and the main administrative user can credit SMS to the sub-user accounts as per requirement.

Procedure for sending bulk SMS

(Transactional/Promotional)

- Purchase the required bulk SMS plan from the nearest BSNL Customer Service Center
- Username, password and sender name will be allotted to the user.
- The user can then log on to our website and start using it
- The user can upload the sms file in excel format and schedule it as per convenience.
- SMS can be send as long as there is sufficient balance in the user's account.

- Customers can also directly send SMS Messages from their software application by consuming W3C standard Web Services published in BSNL's SMS Gateway
